

**OVERVIEW OF THE**  
**EXCLUSIVE LIST OF MEDICAL PROVIDERS**  
***(Old Republic Construction Program Group)***

The term “medical providers” refers to the hospitals, facilities, doctors and others that provide medical treatment for injuries. This Exclusive List is only for Carpenters whose injury is covered by the employer’s Old Republic Construction Program Group’s insurance policy for this program.

**USING THE EXCLUSIVE LIST**

Your fastest access to the Exclusive List of Medical Providers is at the website for Coventry Health Care: [www.talispoint.com/cvty/gbmpn](http://www.talispoint.com/cvty/gbmpn).

1. Click on the “Quick Search” box at the top of the page.
2. Enter city and state or zip code of the location. The website should provide all facilities within 35 miles of the location.
3. Or, select “Region Search” and select by region/city and provider.

The Exclusive List is comprised of (and limited to) the medical providers in California.

If you do not have Internet access, or want help, you may call the Gallagher Bassett Rep (818-746-9959) or the Trust’s Ombudsman (800-320-2413.) Either will help you select an appropriate medical provider.

**WHAT THE EXCLUSIVE LIST MEANS**

When you need medical treatments for a work injury, you must select all your medical providers from this Exclusive List.

For example, if you are injured and need medical treatment, you select medical providers from the Exclusive List. The insurance company or Ombudsman can help you select what you need, but it is your responsibility and choice. Neither the employer nor insurance company can force you to use a particular medical provider.

**RULES ABOUT SELECTING MEDICAL PROVIDERS**

Article VI of the Workers’ Compensation Addendum provides rules about selecting medical providers. For example:

1. In an emergency, you may get reasonable and necessary treatment from another medical provider. However, treatment must be transferred to a medical provider from the Exclusive List as soon as possible, consistent with sound medical practice.
2. The insurance company does not have to pay for treatment you receive from a medical provider that is not on the Exclusive List of Medical Providers. (For example, if you get treatment from a doctor that is not on the Exclusive List, and the Addendum does not permit you to, then the insurer will not have to pay for that treatment; the doctor may then want to sue you to get paid.)
